

I am a traveling repair man who puts 300 miles a day on my car. I am paid by the call so the more calls I can get done, the more money I make. I use my XM radio to get current traffic information which in turn makes me a more efficient worker.

I am paying a monthly fee on top of a substantial cash investment for the XM equipment so I can listen to the variety of programming that I want. I do not see why the National Association of Broadcasters should be able to dictate what I listen to, especially if I am paying for it.

I respectfully urge the FCC to reject the NAB's petition 04-160 and support XM's ability to provide the kind of programming I demand and deserve.

Thank you for your time.

Respectfully,

George A. D'Alessandro
